BUT IT WAS PUBLISHED TOO SOON When Too Late for Denial They Were to Put Out a Story of the Cobden Club's

ISDIANAPOLIS, Ind., October 30. - IStaff Correspondence.]—For several days quiet rumors have prevailed in certain quarters to the effect that the republicans had in keeping, to spring upon the people next Sunday morning—so that it could not be answered in time—a still greater sation than the Sackville West letter.

A gentleman high in republican counsels has just returned from a trip to Mar Quay in New York. Part of the budget has been let out, but by far the most important part is yet to be told. According to rumor the national republican committee disince have president to republican committee claim to have positive knowledge that the Cobden club of England has raised a fund of one million dollars for the democratic canvass. It is said that they have evidence that a large check from that source was paid through a Boston bank a few weeks ago. The publica-tion of the Sackville-West letter brought mat-ters so it is said, to a crisis, and the Cobden club at once cabled one million dollars for the use of the national committee.

This story, invested with a great deal of mystery, has been very carefully prepared. It was the purpose to spring it from Indianapolis in the Sunday papers, when but one day would ervene until election day. In the storm which would thus be raised over the spending of foreign money to influence the elec-tion the republicans hoped to carry the election through with a rush. Of course the exposure of the story would follow later, but the election of General Harrison would have been accomplished, thus making the end

This plan, which has been hatched with consummate skill, and which now finds premature publication, was intended to have a local re-It, if it failed of its national effect, and that was to run up the price of floating votes in this state. The republican workers are busily engaged ferreting out democratic workers and assuring them that the democratic committee has at its disposal hundreds of thousands of strike for higher pay, and thus cripple the democrats, who are really short of funds for even the necessary expenses of a state cam-

THE CLOSING DEMONSTRATION Today the closing monster demonstration of the republicans took place in Terre Haute, the home of Dan Vorhees. It is also the home of Uncle Dick Thompson, ex-President Hayes's secretary of the navy, which is not so much federal veterans, with fife and drum, were on their way to the depot when your correspondent dropped in, determined to have his share of the day's performances. The first revelation made on the train was the fact that the whole three hundred men had their fare paid by the state central republican committee. It is thus that the republicans get up imposing demonstrations. Opposite to me sat a sharp-featured man who seemed to be full of the oc-He gave his name as Oakey, an exmarshal of Terre Haute and a member of Har-

rison's old regiment during the war.
"I am against Cleveland," he said, "because was willing to return the rebel flags. By God we captured them, and no man must ever return them. The rebels should be satisfied that we let them live, and not try to run this government. The northern democrats only help to put the rebel democrats of the south on top. The southern people have no right to hold office."

But who would govern the southern states in that case?" I interrupted.
"The negroes, and the loyal men; and no man who ever tried to break up the govern-ment should have any rights under it. The Members of a Campaign Scheme confederate generals ought not show their

"But what about such generals as Mosby

Mahone and Longstreet?' "They should never had anything. We would have had peace if a hundred southern generals had been hanged. If it had not been for Cleveland all our boys would now be drawing comfortable pensions, but he is not the friend of the old soldier."

is is a sample of the average republican sentiment among those who are not politically discreet. The old flag and an appropriation, more especially the appropriation, is the grand object in view. It is boodle for votes and then life long boodle for the military service of twenty-five years ago. This is the bond which links so many of them together.

HOVEY LEADING THE GANG. Thousands greeted the Harrlson veterans as they stepped off the train at Terre Haute, and indue time the great parade was on its way, led off by the republican candidate for governor, General Hovey, and the notorious Corporal Tanner. There were military in line as well as squads of veterans. Hundreds of riders on horseback, male and female, rode through the streets singing campaign songs amid the plaudits of the crowd. Along the sidewalk. hadies, young and pretty, were dressed in white, with blue sashes, and wearing military caps. In one company the white and blacks rode promiscuously. Large band wagons filled with little girls, from six to ten, first of one color and then another, followed. The trades feature of the parade was really magnificent. The displays were so arranged as to show that

Prosperity attended protection and rags and beggars attended free trade. That will do well enough for a show," said an old gentleman at my elbow whose name I inbsequently learned to be Frische, "but the democrats will carry this country next Tues-

I encouraged the old gentleman to prove it, "I voted for W. H. Harrison in 1840, but I will not vote for his grandson. Mr. Cleveland has made the best president we have had in was made the best president we have had may life time. This is the first time in thirty years that the people of Indiana have had an issue. The farmers call for tariff reform. This county voted by 140 majority for Blaine, but it will now give 200 majority for Cleveland. The proude have been ground down by hand. The people have been ground down by taxation and now they have a chance to throw it over and now they are going to do so. The old soldiers are making a great noise about their pensions, but one half of the voters are men who have grown up since the war. Those

men have no interest in extravagant pensions, and will not vote for taxation.' DEMOCRATS NOT SCARED. Just then I came across Editor Ball, of the Terro Haute Gazette. "The procession," and he, "does not scare us. The republicans have control of the railroads and get terms for these for their own demonstrations, which are never accorded the democrats. In fact there is rea-son to believe that whole trainloads of republicans are trasported from point to point free of cost. The excuse is put up that the committee pays for it, but I do not believe it. pays for it, but I do not believe it.

porations and the rich men. Then again whenever the democrats have a demonstration, the employers put the employes on double duty and put in the appearance of a great business rush. This keeps the men away. On the contrary, when YORK CITY.

the republicans have a parade, the employers let their men have a holiday on full pay. Of course they take it and help to swell the numbers. There are men in that parade now before you whom I know will vote for Cleve-land and Thurman. They will be on hand next Tuesday and will carry Vige county, heretofore republican, for Cleveland."

"What of the state at large?"
"It will go for Cleveland by not less than 15,000 majority. There is no doubt about it. Everywhere dozens of conversions to the de-

mocracy may be noted."

The statement of Editor Ball that the corporations and the rich men were for Harrison, suggested the question as to bow the working men would vote. Approaching a railroad watchman, he was asked:

"Who will be the next president?"
"Cleveland," was his ready response. He ent on to say that Harrison was unpopular with the workingman. That he always sided with the rich and had no sympathy for the poor. Every railroad man in Terre Haute, he said, thought as he did. Next I addressed an

engineer at the depot.
"Harrison called out a military company," he said, "to mow down honest men who were striking against pauper wages. There's no use talking to the workingmen in favor of

Twenty-three workingmen, as they passed by in their daily avocations, were halted and asked the same question, and nineteen of them-replied that they were going to vote for Cleve-On the way back to Indianapolis a promi-

nent gentleman was talking about the popularity of Harrison on the main residence streets of the city. The only votes cast against him. he said, would be on the cross streets of the city. "Where the poor people live?" was injected.

"Yes," he replied.

In the meantime, the republicans are filling the state with floaters. They know that money and the importation of votes are their only means of carrying the state. It is significant that Dudley, the famons \$2 man, has been here and that he will return by Saturday night llars. The object is to make the workers to direct operations in his own peculiar style. ike for higher pay, and thus cripple the The coming of Dudley means a "divvy" for the impecunious voters who stand around gaping for the man who will give them the highest recognition. The importance of every vote that can be secured is greater to the republicans than it is to the democrats, because the republicans ratio of natural increase is less than that of the democrats. In 1880, there was in round numbers, a total vote cast of 470,000 and in 1884 of 494,000, being a gain of to its credit. The first regiment of Harrison's | 24,000 new voters. Of this 21,000 increase, the democrats got 18,000 and the republicans 6,000, while the scattering parties barely hold their wn. Mr. Blaine received in round numbers 238,000 votes; Mr. Cleveland 244,000 and the scattering tickets 12,000. Carrying out the ratio of 1884 there will be in 1888 an increase of 25,000 voters. Dividing it as it was divided in 1884, giving 18,350 to the democrats and 16,-350 to the republicans would make the vote of the state stand 519,000, which would divide out

Mr. Harrison..... This would make the vote for Cleveland 262,350 and the combined vote of Harrison, Fisk and others 256,650, giving Cleveland a clear majority over all of 5,700 instead of only a plurality of 6,512 as in 1884. This majority they of 5,700 for the democrafic ticket is the then of 5,700 for the democratic ticket is the estimate which I desire to place on public record and which I believe will not vary one hundred from the actural result as will be shown on next Tuesday night.

Mrs. Cleveland the Recipient of a Handsome Watch from Working Girls.

Washingron, October 30.—Mrs. Charles N. Thorpe, wife of the president of the Keystone Watch Case company, of Philadelphia, called by appointment on Mrs. Cleveland at Oak View today, and on behalf of 350 women employed by the company, presented to her a watch, the case of which was made by them. In presenting the watch, Mrs. Thorpe said: "The women and girls employed in the Keystone Watch Case "factory in Philadelphia, have made the case of this watch, and beg to present it to Mrs. Grover Cleveland, as a specimen of their handleraft. As they thus honor themselves they would indicate also their appreciation of the advanced position the wife of the president has taken toward the working women of America, and express their gratitude that she has so unfailingly used her influence in their behalf. That she may ever live as an example to her countrywomen, is the prayer of those whose names are herein appended."

USING THE BOODLE. HARRISON'S RECENT VISIT TO NEW AND WITH WHOM HE WAS CLOSETED

The Democrats Happy Over Minister West Getting His Walking Papers-Mat Quay Wants Harrison to Keep His Mouth Shut.

NEW YORK, October 30 .- [Special.]-The British minister has at last been relieved of his embarrassment by the president demanding his passports. Private information to that effect reached the democratic national headquarters from Washington late this afternoon The president's action is sustained by all rightthinking democrats, and the managers of the democratic canvass consider that the West incident is henceforth eliminated from the cam-paign. They all give the president credit for extreme courtesy in waiting as long as he did before taking summary action. Lord Salisbury would have recalled the undiplomatic minister immediately, it is thought, if he had

not been distantly related to him. The stereotyped remark among democratic politicians tonight is "West is fired and none too soon." Republicans, however, are not elated over the president's action. They think it will likely make more votes for Cleveland than West's letter will for Harrison. When the president said the other day in an interview that the American people must be pa-tient, and in the end they would find that he was no coward, he referred to the action he intended to take in the British minister's case The lovers of croquet will sorely miss Lord

Sackville, because he was the most indefatigable player in Washington. THE BOODLE CAMPAIGN.

In my dispatches I have often referred to the boodle campaign the republicans were carrying on. Every day brings forth additional proofs that they intend to scatter a corruption fund larger than any of their previous efforts. young Harrison was here recently and it is said he met the following shining lights of the republican party: R. C. Kerens, B. F. Jones, Congressman William Walter Phelps, Steve Elkins and others, who assisted him to raise over \$400,000. This large sum was deposited with the republican chairman, Mr. Quay, for immediate use in this city. Kerens is an old

member of the star route gang, hangs around the republican party and is not ostracised like some more prominent star routers who had to face a routers jury, Jones is a rich Pittsburg manufacturer and ex-chairman of the republican national committee. He was elected chairman in 1884 on account of his wealth. He is the creator of Steve Elkins, who was the real chairman of the republican committeee in 1884. Elkins and Phelps are well known, and these same worthies, after they had raised the enormous sum for campaign purposes here, next moved on Chicago and had success. They squeezed the rich republicans there, it is said, out of \$120,000, which sum was sent to Indiana, where it will be distributed on the tame plan, as \$2 bills were given away there in the campaign of 1880.

MUST NOT SHOOT OFF HIS MOUTH. Young Harrison went home happy, but Senator Matt Quay was not. Several republicans of prominence had the temerity to call on him and say they had gained young Harrison's, as well as his father's, consent to have the latter come here next Saturday and review the republican parade. Quay flew into a rage and indulged in lurid epithets. He swore that General Harrison would not leave Indiana while he was running the campaign; that he did not want any Burchard business to happen to his candidate.

Treasurer William W. Dudley, of the national republican committee, has addressed a private letter to the chairman of the republican state committee of Indiana that frankly states that money has been sent to him to use and gives him some valuable pointers how to bamboozle democratic voters. One of his pointers was that the democratic voters must be intimidated by informing them that their registration was illegal. It would keep a good many from the polls. Another plan was to steer democratic voters to democratic heelers who were paying money for votes and make them buy up their own men instead of republicans and floaters. He thought Iudiana, by these methods, would give 10,000 republican majority. He frankly said he did not think New Jersey would go republican.

Addresses a Large Crowd of Democrats in

Wheeling, West Virginia. WHEELING, Va,, October 30.-Today was democratic day in the city, and the fact was first made manifest by the unfurling of bandana streamers from the stores and residences in all parts of the town. A big cannon on the hill above the city waked many people early in the morning and kept up a regular cannon ading during the day. Early trains brought the people in from neighboring places in Ohio, Pennsylvania and West Virginia, uniformed Pennsylvania and West Virginia, uniformed clubs being present from Pittsburg, Allegheny City, Steubenville, Martins Ferry, Moundsville, Bellaire and many other points, besides a number of local organizations. Crowds lined the streets on which the procession had been advertised to move, and gave hearty greetings to the various clubs, and cheered lustily at the sight of Judge Thurman. In the parade, bandana uniforms and umbrellas were prominent. The Allegheny City delegations escorted a mammoth rooster, and others carried big pictures of President Cleveland, Mrs. Cleveland and Judge Thurman. It took foryt-five minutes for the procession to pass a given point.

This afternoon the state orators are holding forth on stands in the open air, the fine weather making open air speeches possible.

Judge Thurman reviewed the democratic procession here today, of which he said that it was one of the finest and best he had ever seen. Later, the judge addresfed a crowd at the rink. He fully intended to speak very briefly, but the surroundings seemed to inspire him, and his voice was strong and clear, and he spoke for fifty-one minutes. In his opening remarks he said: Said: "Although I am tough enough, God knows," teers, and I might speak until the sun shines

The judge briefly discussed the tariff, fisheries and Chinese treaties, and then turned his attention for some time to the Murcheson Sackville correspondence. Of the writer of the Murcheson letter, he said the fellow professed to be inclined to vote for the democratic candidates, when no man can read it without seeing that he is one of the most unprincipled republicans that is to be found in the whole United States [Cheers.] And if the British minister had had as much sense as a ten-year-old boy, he would have seen sense as a ten-year-old boy, he would have seen that some fellow was setting a trap to catch him. Now, genilemen, as i have said once before, and I repeat here, for I want I to come off, there has been an attempt by the democrats to sneer at General Harrison. They call him the grandson of his grandfather. Well, General Harrison stands as much as any man in this world ever stood on his own merits. He was a young lawyer that struggled to the front of the bar unaided by the powers of wealth. He was a soldier who, on the field of battle, won the approval of that great general whose approval is the hightest fittle of honor—General Grant. [Applause.] He stands, if any man ever stood, on his own merits as an American, but when they attempt to sneer at the man because he comes of good stock, I resent it. If you go clear to the sands of Arabia to get good blood in your horses, or to the shores of the German ocean for good blood in your horses, or to the shores of the German ocean for good blood in your cows, let us "recognize good blood in man, when we find him, and he has a lineage of which any great noble house in England might be proud. WASHINGTON, October 30 .- By direction of the president, the secretary of state today informed Lord Sackville that for causes hereto-fore made known to her majesty's government his continuance in his present official position in the United States is no longer acceptable to this government and would consequently be detrimental to the relations between the two countries. The grounds of this action on the part of the United States are stated in the report of the secretary of state to the president, dated the 29th instant, which is as follows:

Washington, October 30.—The cabinet meeting today lasted about two hours and was attended by Secretaries Bayard and Endicott and Attorney-General Garland, Assistant Secretary Thompson, of the treasury, and Commodore Harmony, acting secretary of the navy, were present. A portion of the session was devoted to discussing measures for the relief of the whalers icebound in the Arctic occan. The regular session, however, was devoted mainly to the consideration of the case of the British minister, and the result is shown in a statement consideration of the case of the British minis-ter, and the result is shown in a statement furnished to the press by the secretary of state this afternoon. After Secretary Bayard had prepared this statement, he walked over to the white house and submitted it to the presi-dent for his approval. The president perused it carefully, and suggested a few verbul chan-ges in the introduction, and when these had been made, the members of the press were furnished with copies of it.

WASHINGTON, October 30.—A Post reporter tonight put the following question to Secretary Bayard: "Have you ever, at any time, formally requested or demanded of the British government the recall of Lord Sackville?"

The secretary replied: "No, no; positively no. All statements to that effect are absolutely and qualifiedly untrue. We forwarded to the British government, through our representative at the court of St. James, all the facts in the case. The president waited what he considered to be sufficient length of time before he resolved upon definite action, and finding that the British government were apparently doing nothing in the matter, he decided, in view of the emergency, to do what has been done today."

Lord Sackville's face, as he said this, wore a

Secretary Bayard, when seen tonight, said
there was nothing he could say in addition to
what was stated in his report to the president.

Secretary Bayard declined absolutely to give out anything in regard to the spirit in which the communications of the United States were received by the British government. The matter, he said, was the subject of letters or messages between two parties, and neither, he said, had the right to give out the consent of these communications without the consent of the other. What had taken place between the president and himself he had given to the press, but the other correspondence he did not feel at liberty to make public.

The administration has informed Lord Sackville that his room is better than his company. The Brit isk government had an opportunity to take him out of the way, but did not use it. Public sentiment in the United States could not wait for the slow and cremonous processes of diplomacy. While Lord Satisbury and Mr. Phelps was discussing in the library of the Hatfield house the British minister's escapade, the American Pheips was discussing in the library of the Hatfield house the British minister's escapade, the American people were getting impatient to have the matter, brought summarily to the conclusion to which from the first it has been evident that it must come for whatever political purpose the Sackville in the deut may be used, it is the consideration, not o party tactics, but of national pride and self-respect. Our Anglo-Saxon collaterals across the water will perhaps get the notion into their heads in time that the attitude of this government in this affair had not sprung from bluster and buncombe, but from the proper sense of its own dignity. Mr. Cleveland has reasserted the great commandment of "mind your own business," and the future English ministers to this country will probably stick to it.

A FAMOUS CASE REVIVED

By a Recent Suit in a Charleston, S. C. Court.

Curt.

Charleston, S. C., October 30.—[Special.]—
The celebrated corpse trust case, which made such a sensation here last year, has again been brought to public notice. It will be remembered that a conspiracy was formed among a number of whites and negroes, by which er tain life insurance companies in New York and the west were swindled out of thousands of dolars. The conspirators insuring ficticious persons and passing off orpses procurred from the potter's field, as the deceased personages. The United States Mutual Accident insurance company, of New York, exploded the game by the help of a Pinkerton detective, and five of the conspirators were sent to the penitentiary. The case has been reopened by a suit instituted by the heirs of Pat Foley, who killed himself sometime before the exposure of the conspiracy and who is suspected of having been concerned in the conspiracy. Foley shot himself accidently, it is claimed, while out gunning. His life was insured for \$5,000 each in the National Alliance company and the Security Mutuel Benefit company, both of New York. Pending a settlement of the policies, the evidence in the conspiracy and the companies refused to settle. The heirs of Foley have with the conspiracy and the companies re-fused to settle. The heirs of Foley have brougt suit to recover the policies from the companies named, and should the case come

Because He Sald He Would Vote the Democratic Ticket.

Nashville, October 30.—[Special.]—News reached here today of a very mysterious murder in Henderson county. An aged negro, Mason, lived in a short distance of Buck Snort and had heretofore voted the straight republican ticket, but being convinced of the errors of his ways, he turned over to the democrats and had boasted to several different partier that he was going to vote the democratic ticket this time, and also see that his five sons did the same. Last Sunday morning the old man started to a neighbor's some distance off, and said when he left he would come home that evening. He did not come that evening, nor the next morning. His family became alarmed and instituted a search for him. He was discovered about 3 o'clock Monday evening in a thicket of hazel bushes with his throat cut, and a bloody razor was found near him. Nobody knows who did the deed.

tion of the Officials at the Capital.

Washington, October 30.—The situation of affairs in Hayti, according to reports received at the department of state, has assumed so serious a phase that it has been decided to send a naval vessel to that country for the protection of American interest. It was at first decided to send the Boston, now cruising in West India, to Port Au Prince, but this plan was abandoned, owing to a difficulty of communicating with that vessel. It was finally decided to send the Kearsarge, now undergoing repairs at Norfolk, and Commodore Harmony today sent instructions to hasten the work on that vessel so that she can be put in to commission in a few days. She will proceed direct to Port Au Prince.

Details have just reached Whitesville of the shocking tragedy which occurred just over in Laurens county, in which Griffin Weaver was shot and killed by one Stephen F. New. It appears that Weaver, who lives in Dublin, and New, who lives out in the country near Lovett, went over to Lovett. and Weaver and Will Bales, the man on whose place New is living, got to negotiating a horse trade, and that the terms were not agreed to by Weaver as offered by Bales, but after Bales left Lovett, accompanied by New, who had taken on a considera-ble amount of Lovett's liquor, Weaver concluded to take the offer made by Bales to him on the horse trade, and followed on in pussuit of the parties, but failed to overtake them until they had gotten to New's house. When Weaver got there memories of an old feud between New and Weaver revived in New's mind, when he began to curse and abuse Weaver and called Weaver a Har, upon which Weaver made an effort to take his buggy whip from Weaver made an enort to take his puggy wind rom its socket. Then New began to shoot Weaver, three shots taking effect, from which wounds he died. New made his escape without molestation and is still at large. Weaver was an unmarried man. A Brunswick News man has had the pleas A Brunswick News man has had the pleasure of examining the plans of the lovely live oak, water oak and hickory grove east of the cemetery, fronting on the saits and the boulevard which borders it, and it gives promise of great beauty when completed, as we understand it very soon will be. All the trees have been marked. In the plan there is to be a central park, shaped like the letter O, an avenue surrounding it, drives radiating from it north, south, east and west, and at near the extremity of the tract curving to right or left, and taking by a grad. tract curving to right or left and taking by a gradnal curve the straight direction on a parallel line, then another curve and still another, the whole extent of this series of drives being several miles, all profusely shaded with gigantic live oaks festooned with moss, hickory, guin, water oak and other beautiful trees. The land between the drives is divided into lots, all fronting on these avenues, of ample size for building purposes, and all of them having ample shade.

The Bainbridge Democrat says that on Sat urday last while attempting to get the motes from under the gin, of Mr. J. L. Dickenson, at Steam mill, a negro whose name we could not learn, was terribly cut up and mangled by the gin. One arm was cut all to pieces and he was cut in the side in several places, his ribs we learn, being nearly sawed ugh. His arm was so hopelessly mangled that It was necessary to amputate it.

At Americus Saturday, Dick Maxwell, colored man who drives the express wagon, lost about \$15 in money tied up in his handkerchief. Later in the day Henry Doughtie, colored porter at Tom Mitchell's store, returned the handkerchief, minus the money, to him. Dick asked him for the money, but Henry said he had not seen it. Dick not satisfied with this, so had Henry arrested and placed in fail. He afterwards confessed hav ing found the money also.

On Monday night of last week George G. Ninde committed suicide, at his boarding house near Tate, in Pickens county, by shooting himsel through the head with a pistol. When the firing had ceased and smoke cleared away, a brother-in-law of Niude lay dead upon the floor, with one or more pistol shot wounds in his body. Ninde and his brother-in-law had had a fuss a few days before this and for that reason Ninde was charged with the murder, but before he could be arrested, he skipped out that night and went to Canada, when nained a short while, and then went to Phile he remained a short while, and then went to Phila-delphia, at which place he stayed until about three years ago, when he came to Georgia and engaged with the Georgia Marble company, where he has since been. This is the story as he told it. He was anxious to return home, and wrote to his relatives for money to do so, but getting no encouragement, he became despondent and took his life.

One Boy Crushed to Death and Another Has a Narrow Escape.

Albany, Ga., October 30.—[Special.]—Two negro boys, Ely Johnson and Will Gilmer, ran away from Albany this morning and seated themselves under a truck on the down passenger train on the Brunswick and Western railroad. Both were to be tried at the county court to convene here tomorrow. As the train neared Alahaha Gilmer fell from his perch and was cut to pieces. Johnson landed at Alahaha and told of his companion's death. His remains were gathered up and buried at Alpaha. Johnson's father heard that his son was killed and became a raving maniac, and had to be confined. Both were bad boys. Ely robbed a gentleman of money while asleep by cutting gentleman of money while asleep by cutting out his pocket. The dead boy was shot in the eye with a rannod while exchanging shots with a companion. The rannod was pulled out of his head. His eye was destroyed and his face was terribly disfigured, but it did him no other harm.

PICKETT AT LAWRENCEVILLE. Parson Thad Meets With a Cold Reception in Old Gwinnett.

In Old Gwinnett.

LAWRENCEVILLE, Ga., October 30.—[Special.]
Pickett's speech of three hours' length today
was the most nonsensical, abusive and denunciating harangae delivered by mortal lips. He
had freely advertised his appointment, but
about 140 people, including twenty-five negroes, twenty-five boys, and fifty Candler men
constituted his audience. He denounced Mr.
Candler, Bill Findley, Johnson and Dunlap as
liars, and stated that Ben Perry, of Cherokee,
told him that Candler's money controlled the liars, and stated that Ben Perry, of Cherokee, told him that Candler's money controlled the politics of his paper in this campaign. He denounced Pirkle as a consummate liar and hypocrite, and asserted that Candler had him hired to talk for him. He quoted what his friends said about the reports circulated on him about his mother, but the denial of the truth of that statement never fell from his lips. It was a cold day for the slanderer here. He said nothing that deserved a reply. It was slander and slime from alpha to omega.

FIVE LITTLE ORPHANS.

The Story They Told and What the Truth Really Was.

Macon, Ga., October 30.—[Special.]-This morning about 3 o'clock Officer Jeff Johnson found the following boys at the depot, who were evidently intending to take the train and get to Florida the best way they could:

Willie Fairbanks, of Tallahassee, Fla., ten greats old

years old. George Fairbanks, of Tallahassee, Fla.,

George Fairbanks, of Tallahassee, Fla., twelve years old.
James Weir, of Jacksonville, Fla., fifteen years old.
Thomas Potts, of Tallahassee, Fla., nine years old.
Hugh Miller, of Albany, eleven years old.
Officer Johnson carried the boys to the city barracks where they were kept until about nine o'clock this morning, when Rev. L. B. Payne, agent of the South Georgia Conference orphan home, arrived at the barracks and stated that the boys had run away from the home. They were given into his charge and he car-

ted that the boys had run away from the home. They were given into his charge and he carried them back to the home. Mr. Payne said that he had been intending to send the eldest of the boys to his home at Jacksonville. These boys must have been the same five young fellows City Engineer Wheeler and Alderman McCrary saw yesterday morning in Oak Ridge cemetery, which is not very far from the orphan's home. They told the gentlemen that they had walked from Atlanta via the East Tennessee railroad and were making their way back to Florida, from where they had come during the yellow fever epidemic They stated they had no money and would have to walk to Florida. They said they had been sleeping in the woods and eating whatever any one gave them. They were told to 20 to Mayor Price and he would give them a railroad pass to Florida. give them a railroad pass to Florida. They did not go to the mayor, however. It would seem they did not go to the city hall for fear their identity would be discovered and they would be returned to the orphan home.

Among them was Duncan Johnson, the fifteen-year-old boy who took the key of a drawer from the pockets of Mr. John Williams, of Jones, and unlocking the drawer, stole a bag containing \$135 in gold. He owned up to the robbery, and said he was induced to steal the money by Flora Dumas, the cook. He goes up for four years. Rothschild Bros., of this city, dealers in dry goods and clothing, have been arrested and placed under bond on the charge of receiving stolen goods. The prosecutor is Mr. H. C. Bussey, from whom a negro stole a small sum of money a few days ago, and with which he bought clothing of the firm aftersmarl sum of money a rew days ago, and with which he bought clothing of the firm after-ward. It is alleged they knew the money had been stolen. The case is rather a singular one. The exposition directors will go to Opelika tomorrow to attend the fair.

THE OPELIKA FAIR.

Congressman Oates Makes a Speech to the
Assembled Thousands.

Opelika, Ala., October 30.—[Special.]—The
East Alabama fair is now in the height of its
glory. Colonel W. C. Oates delivered a magnificent speech to the assembled thousands
this morning. Horse racing, fox hunting and
speech making have been the order of the day
today. A line of backs and busses run
to the ground every five minutes. There
will be grand racing every day. The main
building is crowded to overflowing. While
this exposition is not as large as the Piedmont,
it reminds me very much of that gigantic enterprise in its completeness. No such crowds tremines his very mich of that gagaine enterprise in its completeness. No such crowds were ever in the city before. Every train is loaded to its fullest capacity.

Mr. W. E. Johnson, representing The Constitution, arrived here this morning and will write the fair up in all its details.

RAILROAD GOSSIP.

AN OPINION CONCERNING THE TER-MINAL DEAL.

Railroads as Public Servants and the Laws Which Regulate Them-News and Notes

of Interest-Brief Mention. "Give THE CONSTITUTION your opinion as to the effect of the Richmond Terminal deal, so far as Atlanta is concerned?" This was the question put to one of the best inform

oad men in Atlanta. "My opinion has never changed since it was formed, the day I read of the latest move of the corporation. It is not an original one, but I am perfectly willing to tell you what it is, and I can do that in a very words. The effect of the deal depends entirely on the policy pur-

sued by the Terminal company. of course. But outline some of the possi "We'l, in the first place, you know I do not regard railroad combinations as the worst thing on earth, by any means. Especially since the laws of recent years have given them a prescribed maximum limit as to charges, within which they must operate."

"In the second place, the railroads come nearer being the servants of the people than any other public enterprise. Now, let us suppose a case. We will say that the Terminal any other public enterprise. Now, let us suppose a case. We will say that the Terminal company today controls and operates every raffroad leading into Atlanta. Suppose, again, that they inaugurate a policy inimical to the business interests of Atlanta, and attempt to take advantage of their practical monopoly to exact extortionate freight rates? Does not every one know that there are strong state and national laws which would at once check them? The railroads know it, anyway, and would not be likely to attempt it. "That would appear to be a reasonable argument so far as freight tariffs are concerned. What about train service and passenger accommo lations?"

What about train service and passenger accommo lations?"

Now you get down to the bed rock of the whole question. The traveling public of the United States are daily growing more and more exacting. They demand the latest improvements in cars, good time and connections, with convenient schedules. Let us suppose again that the Terminal company has control of the roads centering in Atlanta. Had they that, they would give the traveling public poor cars, bad schedules and connections, and a generally detested train service. What do you suppose would be the result? Just as sure as day breaks, just so sure will the people provide some other means of accommodation. Just so sure will they build roads themselves, or give inducements for others to build them, that will result in breaking an attempted monopoly into shithercens."

will result in breaking an attempted monopoly into mithereens."
"With this result the combination would not appear to be entirely for evil?"
"That is exactly what I meant when I said that the Terminal company's policy in the management of their roads is the key to Atlanta's railroad fature. There will be railroads built into Atlanta and out of Atlanta just as fast as men and money can build them, if the Terminal company's policy is not in line with the interests of Atlanta—and I don't know that capitalists will ever wait to see

with the interests of Atlanta—and I don't know that capitalists will ever wait to see what their policy is to be."

"What do you mean by that?"

"I mean just this. When did you ever see so much interest taken in the railroad situation as since the Terminal deal? Look at the columns of THE CONSTITUTION for every issue since that date and you will find some new entered. since that date and you will find some new enterprise in railroad building mentioned. When did the people of Atlanta ever take so much interest in the completion and absolute independence of the Atlanta and Florida? Why, even now there is a project on foot to get the Kausas City, Fort Scott and Memphis to build to this city and form an alliance with the Atlanta and Florida. Look at the interest taken in the future of the State road, in the extension of the Marietta and North Georgia, Colonel Fry's road, and the Georgia, Colonel Fry's road, and the Georgia, Caroina and Northern. I can tell you this: The Richmond Terminal deal has stirred up note interest in railroad matters than anything that has ever trapspired in the south. And while I do not regard it possible, as I liave already said, for that corporation, or any other railroad syndicate, to injure the business of a city, state or section, under the present laws, the people may not wait and give them an opportunity to try it. If this is the result railroad building in the south will have an impense that it never had before, and competition will be stronger than it ever has been."

"What do you know about the suits to abrogate the Terminal deals?"

"The lawyers who are anticipating a luxuriant harvest of litigation, growing out of the Richmond Terminal deals?"

"The lawyers who are anticipating a luxuriant harvest of litigation, growing out of the Richmond Terminal of the railroad property, are likely to be disappointed. As in all other transactions of equal magnitude and of such far-reaching effect, there is bound to be a minority disaffection. Introducing this description President Pullman gives some statistics that will prove gratifying to the stockholders, while the traveling public will read with interest of the immense inclusiry which the buttleing of Pullman sleepers has developed.

President Pullman says:

During the fiscat year the Baltimore and Ohio sleeping and parlor ear plant has been purchased, including a contract for the operation of the cars of this company upon that system of raliways for a period of twenty-five years. The joint interest of the New York, Lake Eric and Western Raliway company in the sleeping and parlor car plant of its system, has also been purchased by this company, including a contract-covering the entire Eric railway and controlled lines for a period of twenty-five years. The Ohio and Mississippi, cincinnati, Washington and Baltimore, and the Chicago and Atlantic railways have made with this company similar contracts for the same period. A contract for fifteen years with the Texas Panhandle system, which forms an important part of the line between Denver and New Orleans, has been added to our list of contracts; also the Wabash Western, Canada and Atlantic and Mexican National Railway companies.

We have built and placed in service during the year 147 sleeping, parlor and dining cars, costing 316, 332.43 cach, or an aggregate of \$2,08.217.21. There are now under construction 90 cars, the estimated cost being about \$17,000 cach, or an aggregate of \$1,550,002. These cars, with the 85 purchases of the Baltimore and Ohio, and the 147 built during the year, will make a total of 322, an addition of about \$2,902. Puring the fiscat year the Baltimore and Obio sleeping and parlor car plant has been purchased, including a contract for the operation of the cars of this company upon that system of railways for a period of twenty-five years. The joint interest of the New York, Lake Erie and Western Railway company in the sleeping and parlor car plant of its system, has also been purchased by this company, including a contract covering the entire Erie railway and controlled lines for a period of twenty-five years. The Ohio and Mississippi, Gincinnat, Washington and Baltimore, and the Chicago and Atlantic railways have made with this company similar contracts for the same period. A contract for fifteen years with the Texas Panhandle system, which lottes in important part of the line between Denver and New Orieans, has been added to our list of contacts also the Wabash Western, Canada and Atlantic and Mexican National Railway companies.

We have built and piaced in service during the year 147 sleeping, parlor and dining cars, costing \$16,382 for each, or an aggregate of \$2,508,217.21. There are now underconstruction 90 cars, the estimated cost being about \$17,000 each, or an anggregate of \$1,50,00.0. These cars, with the \$5 purchases of the Baltimore and Ohio, and the 147 built during the year, will make a total of \$22, an addition of about \$5, see cent to the total equipment in service July 3, 1887.

There has been expended for new dwellings and additions of about \$2, an addition of additions of a service of \$2, 208

The number of cars employed in the service is 1.429; the number of passengers carried during the year, 3.43,306; the mileage of cars, 120,801,807.

The total mileage of railway covered by contracts for the operation of the cars of this company is 106,131.

for the operation of the cars of this company is 106.131.

The population of Pullman as shown by the census July I. 1883, was 10,560 persons, against 10,081 the previous year. On September 15,26 additional families had been added, increasing it to 10,716. The community continues to be distinguished for its intelligence and orderly character. It is self-reliant and self-sustaining in every way. There are no taken to the streets during working hours.

The Pallman bank statement shows savings deposits at the end of the fiscal year of \$222,157; an interest of \$38,260 from the same date of previous year. The number of depositors has increased during the year from 9to 1,170.

The religious sentiment of the community is indicated by its enterprise in church construction. In addition to the Presbyterian and other churches already established, the Swedish Lutherans are making satisfactory progress with their new church edition and expect to have it ready for occupancy fairing the late sutumn. The congregation of the Holy Rosary Catho is church has completed a handsome parsonage and expects to finish its church edition the only of the public schools for the school year was 1,322; of this num-

ber 652 were boss and 670 were girls. Twenty-two teachers were engaged in the regular school work and two special teachers, one for drawing and one for-muse, were also employed. The schools have opened this autumn with every available seat occupied.

or this attum with every available seat officerpied.

In connection with the subject of education. I am
especially pleased with the practical industrial
training in operation at Pullman, which has already produced excellent results. When a son of
any of the operatives expresses a desite to learn a
trade, he is taken into the works and given an opportunity to dose. As soon as his services are of
any value to the company his name is placed upon
the rolls and he is raid by the piece, so that he has
every inducement to improve. There are now
thirty-six boys in the carving department, some of
whom show unusual aptitude in that line. A considerable number of young mechanics are now employed who learned their trade an the shop in which
they work.

ployed who learned their trade an the shop in which they work.

Inat the advantages of the public Library continue to be appreciated is evident from the fact that the number of books issued to the members has steadily increased from year to year. With about 6,000 volumes in the library, the number taken out during the year was 12,007. From this it will be seen that the whole number of books was used twice by the community, or that the entire library is used practically every six months. As only it per cent of the books are classed as fiction and two hills be seen that a desire exits for substantial reading rather than for mere ambsement. The 65 papers and periodicals supplied are extensively used, and the reading room of the Boary is never without occupants in the evenings.

From New York to London by Rail.

Under this heading, which looks as though

Under this heading, which looks as though it might be a one-line joke, the Portland Oregonian has the following: People will, instead of risking the dangers of an Atlantic trup and the horrors of mai de mer, as well as for the purpose of saving time, leave New York for London via Portland and St. Petersburg, and thus will be exemplified more fully the great speech of Senator Benton, when, in pointing from Washington toward the Pacific, he exclaimed: "There lies the east; there lies India." There are now two lines of railway running eastward from St. Petersburg toward the Ural mountains, one terminating at Orenburg and the other at Ekaterinburg, and the crar has lately approved of a plan to build a railway continuing from the Ural mountains to the Pacific ocean, a distance of about 7,000 miles, including the 1,500 miles already constructed from St. Petersburg to the Ural. This road will have its eastern terminus at Vladivostock, which is situated at the furthest southern extremity of Russian territory lying on the Pacific oreast of the trial transfer might be a one-line joke, the Portland Oregonian will have its eastern terminus at Vladivostock, which is situated at the firithest southern extremity of Russian territory lying on the Pacific coast, on that side. This, of itself, will much shorten the trip from St. Petersburg to American Pacific coast ports, superinducing, as it will, a line of steamers from Viadivostock to American ports, across a much marrower a portion of the Pacific ocean than that of the course of the steamers now plying between Vancouver and Yokohama.

But in a little time, comparatively, the route will be all rail from St. Petersburg to New York. The generation now growing up will make the trip,

Will Raoul Return?

Based on the friendships and most history of

Based on the friendships and past history of the Central management, the newspapers are string a story to the effect that President Alexanprinting a story to the effect that President Alexander will be defeated and be succeeded by his predecesor, W. G. Raoul. Mr. Raoul, now the president of the Mexican National railroad, with a salary of \$25.0.0 a year, is known to have the cordial support and friendship of the stronger element in the syndicate now controling the future of the Gentral system, and it is said that he could return to his former position if he so desired. So far as salary is concerned, there is no question as to the superiority of his present office, but this calculation may not enter into Mr. Raoul's option of the matter. However, this question, like many of the others which have grown out of the recent railroad deals, will only be settled when the proper time comes. Until then, the field for rumor and speculation is an open and inviting one. A Big Suit Probable.

The shops of the Alabama Great Southern The shops of the Alabama Great Southern were removed from Chattanooga to Birmingham some time ago, but the end is not yet—that is, the law suits have only begun. The land on which these shops were formerly located in Chattanooga was donated for the purpose of securing them, and under the terms of the grant the property reverts to the estate of the former owner now that the shops have been removed. Of lawsuits there is apparently no end.

Birmingham's Boom. Birmingham is in the full enjoyment of an ther boom. The papers there announce that the railroads have inaugurated the free delivery system tor the benefit of shippers. At least, three of the roads running into that city have inaugurated the system, under the lead of the Central, and the others will doubtless adopt the same plan.

rad commission, has gone to Canton, Ga., to recu-perate from the effects of his recent illness. The "drummers' train," on the Atlanta and West Point road, has changed its leaving time from 7:45 a. m. to 1:45 p. m. Trains leave from the foot of Atlanma street. This change is only a temporary one. A 'possum escaped from a Western and At-lantic express car in the carshed last night, and the porters, baggage handlers and mail men had a lively chase after "de 'possum." THE DAILY CONSTITUTION Is delivered by carriers in the city, or mailed postage free, at \$1.00 per month, \$2.50 for thre month, or \$10.00 a year.

THE WEEKLY CONSTITUTION (Circulation over 110,000) is mailed, post-paid, for \$1.26 a year, or for \$1.00 in clubs of 1 ve of more. Address all letters to THE CONSTITUTION,

J. J. Flynn, General Eastern Agent, Park Row, New York City. ATLANTA, GA., OCTOBER 31, 1888.

The Municipal Campaign. THE CONSTITUTION is heart and soul for the conservative ticket. We believe that on its election depends, to a great extent, the future prosperity and welfare of th city. We have urged the good people of the city to rally to its support, and we shall con-

tinue to do so until the day of the election. We regret very much that certain gentlemen, at the anti-conservative meeting held at the courthouse Monday night, saw fit to attack the press of the city with the charge of unfairness in its attitude toward the anticonservative ticket. Mr. Walter Brown, the (andidate for mayor on that ticket, went out of his way to make it appear that the element which he represented could not get a fair showing in the newspapers, and for this reason he stated that dodgers would be nsed to announce meetings and so forth, in the interest of that element. Mr. Brown is at perfect liberty to resort to dodgers, or anything else, to reach the people of the city; but, as far as THE CONSTITUTION is concerned, we say again, as we have said all along to Mr. Brown, the local columns of THE CONSTITUTION will give both sides of the question fairly, and that his treatment shall be not less fair than that received by those who oppose him. It is THE CONSTI-TUTION's duty to give the news, and we propose to give it. Mr. Brown complains that the columns of the newspapers are not open to him. We have several times sent our re porters to him and his friends to get what they had to say, and shall continue to do so throughout the campaign. If the news hurts Mr. Brown and his ticket, we cannot help it; we propose to give it just as it is, without fear or favor.

We trust that Mr. Brown has no complaint to make of our report of his Monday night's meeting, though he announced that the newspapers of the city had tried to kill the meeting by stating that it was postponed until Thursday night. The newspapers stated no such thing. We published on Sunday an interview with Mr. Brown, in which he stated that his, views "would be given at length at a mass meeting to be held Monday night at the courthouse." Late in the evening two prominent members of the anti-conservative committee of seventy came to THE CONSTITUTION office and wrote, themselves, the announcement which we published that it had been "decided to postone definite action until next Thursday hight, when another meeting of the committee would be held." We said nothing about the postponement of Mr. Brown's speech. If any "definite action" was taken last night we have not heard of it.

THE CONSTITUTION will give the news of the campaign, and both sides will be presented with equal fairness. We have tried to impress this upon Mr. Brown, and reiterate that the local columns of THE CON-STITUTION are not confined to the support

At the same time, THE CONSTITUTION will continue to urge upon the people of Atlanta the importance of the election of the conservative ticket. We will continue to show that its triumph will be to the glory of the city, and that its defeat would work unmeasured injury to the city's welfare.

THE state fair opens next Monday, and it promises to be one of the most successful expositions ever held in the state. The Chinese Business.

It is said that the Chinese authorities are much wrought up over the passage by congress of the Chinese exclusion bill, and propose to reciprocate in kind. In this they are entirely right, and no honest man in

this country can object to their position. If there is any reason why Chinamen should not come to this country, there is also a reason why Americans should not go to China. If there is any reason why Chinamen in this country should be harassed and driven out, there is equal reason why Americans in China should be harassed and

driven out. There is trouble in the problem-if it is a problem-but let us get down to business. What is right for one is right for the other. If Chinamen are not to be allowed to come to America, Americans should not be allowed to go to China. This view is the beginning and the end of the whole business. What is fair for one nation is just as fair for

What Republican Success Means The declaration of the republicans that they are contesting this campaign solely on the issue of protection will have no effect

on those who read the newspapers. The bloody shirt is still the main issue, and the whole tendency of the republican fight is dire opposition to the solid south. As a matter of fact, the solid south ap-

pears to be the biggest thing in modern politics. It sticks in the craws of republican politicians, and it hurts the feelings of the republican editors. For all of which let us be thankful. If there is anything in the outh that will stick in the craws of the republican politicians and hurt the feelings of the republican politicians, by all means let us nurse and foster it. The solid south is probably a bigger thing than we have dreamt of-a safeguard for the present and a hostage for the future.

It has been hinted that there will be a small vote in the south, especially in Georgla, where a democratic victory is already assured, but, under the circumstances, we do not understand why this should be so. From the very beginning, the republicans have made the campaign a sectional one. Finding that the south would not divide on the issue of protection, the republicans have bent all their energies in the direction of making a sectional issue. They have done their best to revive the old sectional issues, and to arouse the old sectional prejudices. They have promised their voters that the south should be re-conquered in the interest of the ropublican party, and that its solidity

should be broken up by congressional laws in the old and familiar style that brought this section face to face with carpet-baggism and its results.

That portion of the north which still keeps to its prejudices, and which still nurses the old spirit of sectionalism, has been informed all through this campaign that the result of it would be the breaking up of the solid south by means of repressive legislation. This would not succeed in destroying the solid south politically, but it would demoralize the industrial south; it would drive away capital and investment, and would paralyze the industrial development that has followed the election of a lemocratic administration.

We take pleasure in informing our distinguished republican contemporaries that there will be no break in the solid south for many years to come.

THE verdict of a jury may sometimes be contrary to public sentiment, but the jury system as it exists is the only process by which justice can be secured in a lawful and orderly manner.

General Butler on Yellow Fever. General B. F. Butler makes a notable contribution to yellow fever literature in his article published in the November number

of the North American Review. The general advances a theory concerning the cause and propagation of yellow fever, and what makes his views especially valuable and interesting, is the fact that they are the outcome of his experience in New Orleans, -where, his sanitary precautions, carried out in conformity with these original ideas, kept the yellow fever out of New Orleans during the summer of 1862, although the disease was raging thirty miles below the city, and despite the fact that one case, which escaped the quarantine officers, was brought into the city and died

An interesting feature of the article is General Butler's statement that he got these ideas about the prevention of yellow fever primarily from the Bible, by a careful study of the sanitary regulations enforced by Moses.

It is a common saying with the lawyers that all their jurisprudence is founded on the principles of the ten commandments, but General Butler opens an interesting field of Scripture study in his allusion to the sanitary laws of the Old Testament.

After a description of the situation of New Orleans, protected as it is by the levee from the river, which, in times of high water, rises high above the streets of the city, and connected as it is with the lake by a canal, General Butler tells a pathetic story about the painful position of his unacclimated army, whose fears of the yellow fever were constantly kept alive by the citizens, who delighted to horrify the soldiers by telling them of the ravages of the disease in former years and of its especial fatality among the unacclimated. Having gone through this preliminary agony the general gets down to his experience and says some nteresting things.

He first prepared to keep out imported cases of fever by employing an experienced physician of New Orleans, who was to have double pay if he let no vellow fever cases go by the quarantine station, and was to be shot if he did. With this grim ene couragement the doctor succeeded in keeping out every imported case but one, for which he was not held responsible.

The gist of the article is then in the following extracts;

The general had never heard of the yellow fever in the east; had heard of the plague of cholera and leprosy as terrible scourges. While this country was substantially exempt from them, why should we be cursed with the other? He had not within reach, if there are any such, any works to enlighten him upon this topic

He knew of one, and everybody else knew of the same one, the Bible, but which he had not heard quoted as a work on diseases: in that were the books of Moses. Now, without discussing the estion whether Moses was taught directly of God as to the writing of his books and his instructions to the Israelites, as wholly on one side of the examnation, it is certain that Moses had "all the learning of the Egyptians," which included all the learning of the Egyptians, which included all the learning of that time in the world, upon dealing with the diseases incident to large bodies of men gathered

ogether in a hot limate. together in a hot limate.

The general had before read, with admiration Mose's careful provisions in regard to leprosy and against the plague, and also as to preserving the bodies of the people free from corruption and unrealthiness, and enforcing them even, with the belief on the people's part that he could invoke di-vine power to enforce his provisions.

The general observed that while Moses seemed to

take no care as to the diseases which might arise from the miasma from decaying vegetable matter, and while nothing is said of that peculiar fever, which we know comes to us from such matter, yet that Moses enforced the most thorough, careful and minute cleanliness in regard to all dead or deca nuimal matter of every description, of which he used very large quantities. Moses over and over again requires every day that

the carcass, the offal, the dung and refuse parts of all imals sacrificed, be carried without the d burned up and the ashes even buried. cus 4; 12-20.) And the same imperative orders were given in regard to every part of the animal that we not burned on the altar or eaten as food by the chil-

dren of Aaron.

And it is wonderful to observe the most stringent orders for the most unremitting care that every possible part of or excrementitious matter from the human body, should be, day by day, carefully bur-ied, and every Israelite was armed with an imple-ment for this purpose. (Deuteronomy 23, 16-13). Not only this, but every exhalation from a dea body of any sort, was treated as "uncleanness," and whoever touched anything dead or had any dead matter issue from himself partaking of blood, should wash himself with water and thereafter not comcamp until even. So much and so great care was taken that not a

nicrobe of putrifying flesh should taint the pure air of Palestine, or even the wilderness.

So Moses had neither typhus fever, cholera, nor plagues, inflicted by the Lord for p nishment among the children of Israel during a forty years' march. By feeding his people substantially upon n By feeding his people substantially upon manna, a purely vegetable product, the leproxy was gradually worked out of them. That he had no diseases from decaying vegetable matter might be accounted for by the fact that while he was wandering in the wil derness, there was not then any more than there is now, any considerable vegetable growth, except in the shape of trees—nothing more than the jungle of

the Louisana swamps.

Again the general had observed that in location in our own country, where the "chills and fever" were very prevalent, attacking almost every man, woman and child in the western and southern wilds, woman and child in the western and southern wilds, yet in such places there was no indigenous yellow fever, or any, save when transported there. He observed also, that where there was no decaying vegetable matter, emanations from decaying animal matter, and more especially the exprementations matter from the human body, even exhalations, only when confined so as to be inhaled by living people, produce typhus or "ship fever." He therefore deduced from these considerations the belief that the vellow fever would not be encouraged. that the yellow fever would not be engendered in any locality where there was decaying vegetable matter alone, or where there was decaying animal matter alone, but that it required an atmosphere which contained the seeds-of disease which cause the congest. To fover, and at the same time the seeds of disease, which cause the typhoid fever; and that the cause of these two diseases thus united re-ult in yellow fever, or more carefully speaking

rms of congestive fever as to generate yellow a great genius to be equal to all the responence; but a single genius of yellow fever being induced into such an atmosphere, wherein human ad of vellow fever with an activity and intensi

ty, as the germs which produce these two disease more or less, permeate the atmosphere.

To illustrate so that he may not be misunderstoo A gardener desires to raise mushrooms. He may take a bed of pure savannah mold, mixed with pure ox dung, but no mushrooms spring up from any seed placed in that bed. He may make another bed of like pure mold and horse dung, but no mushroom will spring up from that bed. But let him make another bed wherein he shall mix bis mold with horse and ox dung combined, and under proper circumstances as to light and heat, the same as in each of the other cases, and from the slightest impregnation of the bed at one corner thereof, if you please, with "mushroom spawn." which is so intangible that it cannot be discerned in the mold which encases it to be even a microbe, and twenty-four hours will gladden the gardener's eyes with a plentiful crop of mu rooms, sprung up all over the bed, and for week ontinuing to do so.

Why mushrooms will not flourish unless the bed smade of the two kinds of manure, is not yet known. Why yellow fever will not flourish in an atmosphere unless these two sources of the disease congestive and typhus fever—form a climate for it, is not known, nor has the general ever seen any statement why it will not; but he thinks he knows

from experience that it will not.
What, then, was to be done? It was impossible to clean the city of rotting vegetable mold, but it was believed possible to clean the city from all deleterious emanations of animal matter. Having hired eleven hundred men, he

We went through every street where the any suspicion of animal mat-Wo hoed out, swept out and hed out every drain and ditch in the city, and was took advantage of the rains of the early summer which came down in drenching showers, to drive all this filth into the basins and canals. We then waked a favorable opportunity, when a norther had blown the water out from the lake some two feet deep through the rigolets into the gulf, and then we put the water works of the city pumping and run-ning at their full capacity, while we brushed down the banks of the canals, and sent the water, with the accumulated filth, out into the lake, where i was carried by the wind miles off into the gulf. We then waited for the wind to blow uncontaminated salt water back into the lake and fill it up again, and then that water filled the canals. We did that

clean and clear as any body of water. This, with prompt removal of garbage and stringent sanitary inspection, made up General Butler's preventive measures which were entirely successful. He relates a similar experience at Norfolk, Virginia, in 1864, which city, though previously subject to violent vellow fever epidemics, was entirely free from it that year, despite the fact the disease was epidemic at Newbern, and there was communication between the two places

A Little Story About Mr. Blaine. Perhaps all this talk about Mr. Harrison and Mr. Blaine posing as the representatives of American interests is a big mistake. It is said that only the other day Mr. Blaine stepped into a big New York hat store and asked for a new hat. He said that it must be of English make, but in a moment the clerk fitted him with a satisfac tory hat and told him that it was of American make. Mr. Blaine at first hummed and hawed, and finally noticing the Cleveland badge on the clerk's coat, concluded to take the hat and pay for it.

This little incident shows up the Harrisons and Blaines-just how they stand and just what they wish-they care nothing for the American laboring man and the pro ducts of his labor. They are ready at any moment to step aside and purchase anything that comes from foreign lands.

Now, these men, as we have shown mor than once, are public enemies. They pro duce nothing here, buy nothing here, and purchase everything abroad. So long as the Harrisons and Blaines follow this policy they cannot expect to be regarded as the friends of American workmen. The little story about Mr. Blaine's hat carries a big moral with it.

OUR opinion is that West set his own trap and baited it.

This Tells the Story. For two decades we have been lectured by the apostles of Boston sweetness and ight, who have discoursed to us concerning

the beauty and power of the novels of Howells, James and Tolstoi. Gradually we have grown used to this sort of thing, and have accepted the situation. . However, there seems to be another side to it. The New York Press makes the point that a Boston firm has just repubished the romances of Dumas; another has taken hold of Balzac's books, and all the subscription houses in the country are busier than ever printing the works of

Dickens and Thackeray. This ought to tell the story. The apostles of Boston culture may say what they please. The facts will speak.

THE British newspapers intimate that Americans ought to pay no attention to Sackville West. Well, he's not of much account, that's a fact.

Sackville Sent Home.

President Cleveland's action in informing Lord Sackville that his presence is no longer desired in this country will be approved by all right thinking Americans. The president's consideration for the meddlesome British minister, in giving him a reasonable time in which to resign, and let himself down as easily as possible from his high position, has only served the more conclusively to show that the English lion has been represented in this country by an ass. As usual, the president has acted just in

the nick of time, and with the firmness which has commanded for him the respect of this whole people. Now that the denoument is reached, it can be clearly seen that this wretched trick of the republicans will fail to accomplish its purpose.

As our New York dispatch shows, that party has already begun to feel the boom-

erang effect of this ill timed scheme. With Hewitt and Grant shaking hands in front of the president at the review in New York, and with Sackville West erased. the prospects of democratic success are

Henry George has repudiated, and argued against, both socialism and communism in the most convincing manner, and there is not a man today who is further from a believer in socialism or communism than Henry George. People who think of him as a socialist or communist, simply have not read what he has writ-ten, do not understand his theories and know nothing about him. Those who have not read what he has written are that much behind the times, and are in the dark as to what the thought of the day on social and economic questions is fast shaping itself to. The rule of my life is to pay as I go. I hold the city of Atlanta's receipt for every gallon of her water that I have used.

Associated with my neighbors and triends, we bought and placed our own water meters, laid our own price, thirty-four cents per thousand gallons—whilst the people with the city her own price, thrity-four cents per thousand—for all the water furnished us.

We have intended no wrong, and defrauded no one. Every man on Peachtree street, beyond the city limits, who has thus used and paid the city for water is, without exception, a large tax payer in the city of Atlanta. It was stated at said public meeting that some advantage was had of the city in the sale of the Oglethorpe park property to certain citizens, who purchased the same and organized the Exposition cotton mills. Lowry, and, perhaps, others, some time after the purchase, glady soid out their interest in the so-called great bargain at cost.

We paid to the exposition company \$25,000 for the buildings, \$15,000 to the city of Atlanta for the grounds \$5,000 to the North Georgia Fair association, lessees of the city (for possession), a total of \$45,000, and went forward spending several hundred thousand dollars to equip the property, and for six years past have furuished employment to some 450 to 509 people and thereby furnished a living for some 1,200 to 1,500 tepple, all of whom trade with the city of Atlanta. The terms of the sale required the purchasers to equip affis-class cotton mill of not less than ten thousand spindes. We equipped a plant of 16,000 spindles and 500 looms and have faithfully compiled with our part of the contract, thereby largely increasing the population and trade of the city, I see no good reason why a legitimate business enterprise should be dragged into city polities. If I were a citizen of Atlanta I should esteem it a high privilege to cast my vote for the c nservative treat, headed by Hon. John T. stayed were members of the committee. One

of these approached Chief Connolly and said: "We are going to leave that scaffold here right here, and in the morning we want you to turn it over to the courthouse officials. The scaffold was left standing nor the

AT BLILEY'S SHOP. When the procession marched to the courthouse, Colonel Thomas was sitting in front of Bliley's shop. The gas inside was at full blaze. The men passed by without saying a word, but when the burning was over a crowd of two or three hundred stopped in front of the place. There were no demonstrations, but those around who had heard the rumors began to fear that something was intended. Chief Connolly was sent for, and when the situation was explained to him, he induced Colonel Thomas to turn out the lights and close the door. Then the chief addressed the crowd,

saying:
"Mr. Bliley is not here. He is at his home "Then let's go there," cried a dozen voices. Some of the men started off and a few followed, but the crowd stopped before reaching Alabama street. The crowd remained about the place until Chief Connolly made them take the opposite side of the street. Then they slowly dispersed.

AT BLILEY'S HOME.
Soon after the burning at the courthouse it was reported at police headquarters that a party had gone to Mr. Bliley's home to treat him to tar and feathers. The information came from a reliable source, and the chief sent Captain Mercer, with a half dozen officers, to Mr. Bliley's home, with positive instructions to protect the gentleman at all hazzards. Mr Bliley presed the evening at home quietly and was not disturbed. During the day he was frequently informed that he would have trouble, but he went on with his business in his usual quiet way.
"SAINT EDDLEMAN."

An enterprising street fakir gathered harvest of half-dimes at the crowd. Yesterday he had a cut of the jury made, and it was from

the sale of these that he made his money.

The cut represents the jury sitting around a plate with the foreman at one end. Upon the plate is the word "boodle" and a pile of silver dollars. The foreman has a big spoon of silver dollars. which he is pouring upon the table. Above all is a fair picture of Eddleman as an angel. His hands are extended. In one he has a pistol and in the other a bag of gold. Just under his chin are the words, "Saint Eddleman." Under the picture is:

Foreman-"Well, gentlemen, what is your verdict? Chorus.-"Give us a little more of that

The fakir sold lots of the pictures. But as he was going away Jumbo Hunter "Have you a license?" asked Jumbo.

The man showed his license and Jumbo walked away. But the crowd guyed Jumbo.

THE INVESTIGATION.

This morning Judge Clark will begin an investigation. The investigation is to ascertain whether or not there was anything crooked in the jury room. Some sensational features are promised, but Solicitor Hill, who

is thoroughly posted on what he will get, declines to open his mouth.

There was a rumor last night that the railroad men would request Meore, Marsh & Co., to discharge Gibson, the clerk.

Mr. Bliley found his residence hung in crape

yesterday morning as well as his shop.

There were many ladies about the courthouse.

A railroad man said last night:

"It is all over now; we have had our say.

We don't want to hurt anyone and we aint,
But Eddleman is away.

Maybe he had better
stay away." stay away." Eddleman's whereabouts is not known.

A man with a string tied to a dog walked into the crowd yelling: "Rah for Eddleman!"
In about two seconds a dozen men had him
and threatened to treat him to the rope. The
police interfered and arrested the man, conducting him to police headquarters.
Chief Connolly was waited upon last night

by a delegation of railroad men, who tendered their thanks to him for the efficient manner in which he and his men handled the crowd at the courthouse. The chief said it was an easy crowd to handle, considering the size. Messrs. Editors: I do not know one of the Eddleman jury: I did not know Mr. Gresham, and I do not personally know Mr. Eddleman; but would it not be well for the friends of Mr. Gresham to lis-

ten to the other side, so far as the jury are con-There were two theories in this case. The state said: Eddleman is guilty of murder. The defense said Eddleman acted in self defense. Facts were adduced in evidence to sustain both theories. Neither was conclusively sustained. Then the law says where reasonable doubt exists acquit the defendant. Did the jury do any more in this case? Could that jury do any less under the conflicting evidence? Then should not the friends of Gresham be quiet, and submit to the decree of the law rather than by tumultous assembuges endeavor to bring the law into disrepute. What good will it do to burn the jury in efflay? And if I had to be burnt at all, I would prefer that to any other way. Would you? Respectfully, R, B. Trippe.

THE CONSERVATIVE TICKET ARE OPPOSED TO THE PURCHASE OF

You have probably heard the rumors about the conservative ticket being in favor of the purchase of Piedmont park by the city.' "Yes, I have heard them," replied Mr.

"They were referred to by Mr. Walter Brown in his speech at the courthouse."
"Were they?"
"Yes. Have you anything to say on the subject?"
"Only this, my

Only this: The rumors that the conserva only this: The rumors that the conserva-tive ticket favor the purchase of Piedmont park by the city of Atlanta are as absurd as they are false. There is not a man on the conservative ticket who is not opposed to the purchase of Piedmont park by the city. That's all."

Local politics were rather quietyesterday. The anti-conservative ticket is still in a dismantled condition. The gaps have not been filled. Vacancies still remain for the fourth and sixth wards, and no candidate for alder man has appeared upon the scene.

It was reliably stated, however, that Mr. D.
P. Morris, in the fifth, had not come down and will not come down.

An anti-prohibitionist, who knows a thing or two said.

"The committee of seventy will meet again next Thursday night. What will be done at that meeting nobody knows, not even the

committee.

"This much is certain, however. If the committee conclude to run a ticket, the vacant places on the present partial ticket will be filled at that meeting. If they conclude not to run a ticket, the conclusion will be reached in that meeting. The committee of seventy propose on next Thursday night to take definite action and to fully decide upon the policy to be pursued by the party."

KATE CLAXTON

The meledrama of the Two Orphans was

played to a good audience at DeGive's opera house last night. The play has been seen in Atlanta so often that an extended exiticism would be decidedly out of place.
Years age Kate Claxton convinced the public that she was the best Louise in this country, and in her portrayal of the Blind Girl last night, she fully sustained her reputation. It is not hard to explain her wonderful success in this beautiful and pathetic creation. She is thoroughly in love with the charming character, and her fine acting throughout is but the sympathetic expression of its spirit with which her whole nature is unquestionably imbued. There is unquestionably imbued. There is unquestionably imbued artistic effects, and the reason is that every tone, overy gesture, every attitude, is simply the outward expression of true feeling. With her profound and correct conception of Louise, it would be a simple impossibility for her to err in the execution.

The Mother Frocta d, of Miss Alice Leigh was a clever piece of work in the main, and Miss Judith Berrolde, as Henrietta, showed real emotion a power. often that an extended criticism would be decided-

power.
Gharles A. Stevenson makes a fair Jacques. Payson Macksyl an acceptable Pierre, and Edward Eagleton rather an uncomical P. a.d.
The rest of the company were passable.

The Florence Engagement. reputation as the expositors of all that is best in the art of high comedy is unquestioned. The presert season is the most successful of their long and properous career, a fitting illustration of "the surviv lof the fittest." They come surrounded by a very sperior company, embracing players well known to the public, and they will present besides the wonderfully successful comedy, "The Mighty Dollar," two pieces new Oallants, which have become almost as closely identified with the fame of the Florences as their first success. They are, "The Flirt," a charming society play, and "Our Governor, and His Little Hatelet." The latter is a play of sustained interest from first to last, and in its comedy vein burlesques the English idea of America and the customs of her people. The advent of this genial couple is the signal for a generous welcome to two of the leading comedy lights of the American stage.

Exchange.

NEW YORK. October 30.—Stock market was fairly active today, though greatest animation was in forencon. There was full recover in later day and most of stock this afternoon are small fractions better than last night. Bears were still in full control this morning and New England, Union Pacific and Reading were special points of attack, but while rest of list sympathized with weakness shown in these stock changes in quotations, for most of stock traded in were for insignificant fractions Southern stocks were somewhat unsettled by rumors of resignations in Richmond and West Point, Louisville and Nashville was firm and strong throughout day, and while there was no mark nent in stock at time, it is material higher stock was made upon expectations that roads would come in contact with interstate commission, though impression ande upon them was of little importance. First, prices were generally slight, fractions higher this morning, but attacks upon New England, Union Prefile and Reading were begun immediately, and on large business prices receded various amounts. Remained quiet fever-isif during forenoon, however, being active on de-clines and firmer when animation ceased while bears forced prices off small fractions further pres-sure was removed after 12 o'clock, and while market drifted into dullness material repoveries were established all over the list, and as afternoon were along upwards movement gathered force while activity increased. There was no special feature of interest, however, and market finally closed quiet but stoady to firin generally at about est prices reached which were close to opening narket was somewhat more active.

THE CHICAGO MARKET.

Features of the Speculative Movement in Grain and Provisions. CHICAGO, October 80.-Trading in wheat w light early in the day and the market ruled dull most of the session without much change in prices, which ruled both a trifle under and a fraction over the closing figures of yesterday, but toward the close suddenly became very strong and advanced sharply The opening was weak, with sales from the same as yesterday's closing to 14c lower; declined 4c more, and milied 34c for May, ruled 1rregular and closed 14c higher for December and 27c higher for May than the closing figures of yesterday. The operators, perhaps, were generally bearishly inclined, but were reluctant about backing their views, fearing manipulation. Corn ruled quiet and inactive most of the session, fluctuations being narrow and rading limited, and an easy feeling was developed shortly after the opening, which was about the same as the closing prices of yesterday, after which the market sold off 1/4c, reacted 3/403/c, ruled dull and neglected, closing 1463% lower than yesterday. Speculative trading in oats was less animated. There was a good demand for May delivery at about 29c or about 1/c under vesterday's closing : at any thing above buyers held back. Near futures were very quiet. They were about steady and no essential change worth mentioning occurred. October delivery has become about nominal, being all settled. Trading was rather light in mess pork and almost exclusively in contracts for January deliv-ery. The market opened rather steady, but offerings were fair and prices receeded 71/6010c. Later. ore steadiness prevailed and prices railied again d closed steady. There was not much doing in d. Offerings were fair early, with comparatively light demand, and prices receeded 21/605c, later figures. Total sales for day were 269,778 shares active list is almost invariably small fractions above last afternoon figures, while Missouri, Pacific rose 1% and Loutsville and Nashville 1. SOCIAL EVENTS. A BEAUTIFUL WEDDING AT ST.

Mr. Sidney Holland and Miss Fay Scott United in Marriage—Miss Mabel Holliday and Mr. J. T. Moody Before the Altar. The wedding of Miss Fay Scott and Mr. Sidney Bolland took place at Saint Luke's cathedral last evening. The church was crowded with the many friends of the bride and groom who came to witness

beautiful, all being composed of brilliant autum flowers and leaves, a garland of golden rod, autum leaves and crysanthemums being loopedjacross the arch above and caught in the center with ribbons from which was suspended a ball or white crysanthemums. The music before and during the ceremony was most beautiful and impressive. The orchestra, led by the brides nucle, Mr. Samuel Bradley, played ten fine selec-tions, and the choral choir wasja noticeably attractions, and the choral choir was a noticeably attractive feature. They sang the processional, marching
out and around the aisles before the party came in.
The bridesinaids were gowns of white tuile and silk
earrying in their hands large bouquets of
white and yellow crysanthenums, tied with
cram ribbons, They came with the
groomsmen, in the following order: Mr. Dunlap
Judah and Miss Jennie Mallard, Mr. Will Wilson
Wilson Wilson Mr. Weller Smith and Miss and Miss Kate Cary, Mr. Walter Smith and Miss Jenny Morgan, Miss Lizzie Fry and Mr. William Warren. Then came Miss. Scott and Miss Daisy Merrid, who were followed by the bride, leaning on the arm of her father. As the groom, with his best man, Mr. Donald Bain, met the bride at the altar, a man, Mr. Donald Bain, met the bride at the altar, a beautiful betrothal hymn, written for the bride by Professor Russell, was sung by the chorus boys. Mr. Barrett performed the Episcopal marriage service with impressive feeling, and as he gave his blessing to the kneeling pair the choir sang a marriage hymn, and as the party marched out the recessional was sung. A silver slipper of rice was showered upon the bride as she left the chancel. The bride's toket, lovely in itself, gained an added beauty in the eyes of friends who knew that her grandmother, Mrs. Merrill, had assisted in making it. The gown was of kyory white failid Francaise it. The gown was of iyory white fallie Francaise on train, with brocaded front. The veil of white illusion was confined by exquisite white japonicas and, in her hands, she carried white bride roses. She were no ornaments, but made a lovely picture with her fair face full of light and happiness. She is a young lady of lovely character and manners that have made her beloved by all with whom her life has been thrown.

The groom is one of the finest young business men in Atlanta, respected by all and beloved by his friends for his fine qualities of mind and heart. After the wedding a reception was given to the bridal party and a few friends at the bride's home, bridal party and a few friends at the bride's home, on Luckie street. The house was decorated entirely in autumn flowers, the hallway having brilliant designs in crysanthemums, golden rod and autumn leaves. The drawing-room on the right-hand side was decorated in golden rod and marigolds, and bank of calla lilies, in front of which the bride and groom stood to receive their congratulations, was a very rich decoration.

The drawingroom opposite, in which the nume ous handsome presents were placed, contained beautiful stands and vases of roses. The refresh-ment table in the supper room was a most tempting picture with its handsome epergne of flowers and fruit in the center, and many beautiful bowls of flowers. The handsomest vase of flowers on the

Mr. and Mrs. Holland will take a tour to New Moody-Holliday.

Another pretty wedding last evening was that of Miss Makel Holliday and Mr. J. Moody, at the First Methodist church. As the wedding march was played by Wurm's orchestra four lovely girls, Dalsy Holliday, Bessie Medillan, Suste Fain and Zulette Crumley marcaed up the two siles and opposed the gates for the bridal party. aisles and opened the gates for the bridal party. They wore white silk gowns and white roses. The bridesmaids were Misses M. V. Howell, Vir-ginia Johnson, Florence Hill, Annie Stephens, Berta Wolford, Clara Moody, of Gadsden, Ala., and

Berta Wolford, Clara Moody, of Gadaden, Ala, and Ethel Holliday. They wore lovely gowns of white tulle and silk and carried large bouquets of la France roses, tied with pink moire ribbons.
The groomsmon were Messrs, James H. Johnson, Thomas Peeples, Henry Hines and Clyde Shropshire, Charles Bass, Frank Boozer and Clyde Shropshire, of Rome.

The ushers were Messrs Henry and Sim Post, Orion Nunnally and Joseph Nash.

Orion Nunnally and Joseph Nash.

Miss Holliday entered on the arm of her father. Mr. Moody meeting her at the altar with its mother.

The bridal couple stood beneath a beautiful bell, composed of pure white roses, while Dr. Morrison performed the ceremony in an earnest and beautifu

arch twined with ivy and white roses, and perched above the bell was a white dove, with outstretched wings. The altar was banked with superb palms and terns, and all the chandeliers were hung with white roses and smilax.

gown of white faille francaise, with its costly trimming of pearl passementerie. Her only orna-ments were a pair of diamond carrings—a present from her grandmether. A wreath of natural flow-ers confined the filusive veil, and she carried a bou-quet of zelia la pradel roses, tied with white ribbons. She is a lovely young lady, and her many frands regret that her marriage will take her away ribbons. She is a lovely young lady, and her many friends regret that her marriage will take her away from Atlanta, to reside in Gadsden, Alabama, the home of her husband, who is a prosperous young business man of that city. The attendants, after the ceremony, were invited to a reception at the home of the bride, on Forest avenue. There a beautiful scene awaited them. The house was converted into a fairy land of flowers. The archway in the hall was twined with ivy and crysanthemums and on either side were tall stands of rare flowers and on either side were tall stands of rare flowers and foliage plants. The bridal couple stood in the draw-ing room beneath a marriage bell of white roses suspended by ribbons from the chandeller, to receive their congratulations. The maniel of this room was banked with red and gold crysanthemums and banks of Rr. is and foliage plants most tastefully arranged beautified the corners of the room. The dining room, entirely in pink and white, contained many tas eful decorations, the most unique and beautiful being a white dove suspended above the lables from the chandelier with white ribons. The chandelier we with research smills. The chandelier was twined with roses and smilex.

The chandelier was twined with roses and smilex, and pink and white tapers in silver candelabras made the scene brilliant. The epergne in the center of the table was filled with tropical fruit and pink and white roses and the bride cake was decorated with roses in laing. A bottle of wice, saved from the wedding of the bride's mother, was opened for the attendants who drank the health of the happy pair.

Many beautiful and handsome presents were received.

Last evening, Mrs. Nunnally celebrated her wooden wedding at her home on Peachtree street. The tasteful pariors and hailway were tastefully decorated in flowers, palms and ferns, and the stairway was twined with ivy and crysanthemums. A dainty supper was served, and many useful and or namental gifts were received. The Catholic Fair.

The bazaar in aid of the church of the Im-

maculate Conception, opened last evening in

the Brown building, on Wall street, adjoining the telegraph office. There are three booths for fancy articles, a doll's booth and a refreshment booth. The table on the right is in charge of Mrs. Dr. Spalding and Mrs. Jno. J. Lynch. The next is in charge of Mrs. J. H. Corbally, Mrs. Berry and Mrs. P. J. Moran; the first on the left after passing the ice cream stand is in charge of Mrs. J. F. Burke, Mrs. Joseph Gatins, Miss May Loyd and Mrs. Rhode Hill. The booth in the middle of the hall is in charge of Mrs. Dr. Ridley and Mrs. J. Carroll Payne. The refreshment stand is waited upon by Mrs. O'Neill, Mrs. McDonnell, Mrs. Johnston and Mrs. Corrigan, McDonnell, Mrs. Johnston and Mrs. Corrigan, The decorations of the booths are very handsome, and the young ladies are very attractive. Mr. Tom Corrigan is an authority to be consulted on turkey, chicken salad, oysters, tea and coffee. The fancy articles are numerous, and the use of some of them be wildering to the masculine mind. The dolls are numerous, and all dressed in the latest Parisian style. If you want a bib, a doll baby, a toilet set, an orange, a diamond ring, a corner lot or anything of that kind attend the Catholic fair. Donations are coming in very rapidly and among them some very useful ones.

Last evening was an exceptionally flattering opening.

A BEAUTIFUL WEDDING AT ST. LUKE'S.

United in Marriage-Miss Mabel Holliday and Mr. J. T. Moody Before the Altar. The wedding of Miss Fay Scott and Mr. Sidney and took place at Saint Luke's cathedral last evening. The church was crowded with the many friends of the bride and groom who came to witness the happy event.

The decorations around the chancel were rich and The decorations around the chancel were rich and beautiful, all being composed of brilliant autumn flowers and leaves, a gariand of golden rod, autumn leaves and crysanthemums being loopedjacross the arch above and caught in the center with ribbons from which was suspended a ball of white crysanthemums. The music before and during the ceremony was most beautiful and impressive. The orchestra, led by the bride's uncle, Mr. Samuel Bradley, played ten fine selections, and the choral choir wasja notireably attractive feature. They sang the processional, marching cottand around the aicles before the party came in. The bridesmaids were gowns of white tulle and silk cot and around the aisles before the party came in. The bridgeshalds wore gowns of white tulle and slik carrying in their bands large bouquets of white and yellow crysanthemums, tied with the groomsmen, in the following order: Mr. Dunlap Judah and Miss Jennie Mallard, Mr. Will Wilson and Miss Kate Cary, Mr. Walter Smith and Miss Jenny Morgan, Miss Lizzie Fry and Mr. William Warren. Then came Miss. Scott and Miss Daisy Merril, who were followed by the bride, leaning on the arm of her father. As the groom, with his best man, Mr. Donald Bain, met the bride at the altar, a beautiful betrothal hymn, written for the bride by beautiful betrothal hymn, written for the bride by Professor Russell, was sung by the chorus boys. Mr. Barrett performed the Episcopal marriage service with impressive feeling, and as he gave his blessing to the kneeling pair the choir sang a marriage hymn, and as the party marched out the recessional was sung. A silver slipper of rice was showered upon the bride as she left the chancel. The bride's tohet, lovely in itself, gained an added The bride's tohet, lovely in itself, gained an added beauty in the eyes of friends who knew that her grandmother, Mrs. Merrill, had assisted in making it. The gown was of ivory white faille Francaise en train, with brocaded front. The veil of white illusion was confined by exquisite white japonicas and, in her hands, she earried white bride roses. She wore no ornaments, but made a lovely picture with her fair face full of the produces. She is a young lady of lovely.

light and happiness. She is a young lady of lovely character and manners that have made her beloved by all with whom her life has been thrown. by all with whom her life has been thrown.

The groom is one of the finest young business men in Atlanta, respected by all and beloved by his friends for his fine qualities of mind and heart. After the wedding a reception was given to the bridal party and a few friends at the bride's home, bridal party and a few friends at the bride's nome, on Luckie street. The house was decorated entirely in autumn flowers, the hallway having brilliant designs in crysanthemums, golden rod and autumn leaves. The drawing-room on the right-hand side was decorated in golden rod and marigolds, and bank of calla lilies, in front of which the bride and groom stood to receive their concratabilings was a very rich to receive their congratulations, was a very rich

The drawingroom opposite, in which the numerous handsome presents were placed, contained beautiful stands and vases of roses. The refreshment table in the supper room was a most tempting picture with its handsome epergne of flowers and fruit in the center, and many beautiful bowls of flowers. Moody-Holliday. Another pretty wedding last evening was that of Miss Mabel Holliday and Mr. J. D. Moody, at the First Methodist church. As the wedding march was played by Wurm's orchestra four lovely girls, Daisy Holliday, Bessie McMillan, Susie Fain and Zulette Crumley marcaed up the two alsies and opened the gates for the bridal party. They were white silk gowns and white roses. The bridesmaids were Misses M. V. Howell, Vir ginia Johnson, Florence Hill, Annie Stephens,

Berta Wolford, Clara Moody, of Gadaden, Ala., and Ethel Holliday. They were lovely gowns of white tulle and silk and carried large bouquets of la France roses, tied with pink moire ribbons. The groomsnen were Messrs, James H. Johnson, Thomas Peeples, Henry Hines and Clyde Shrop-shire, Charles Bass, Frank Boozer and Clyde Shrop-

The ushers were Messrs Henry and Sim Post, Orion Nunnally and Joseph Nash.

Miss Holliday entered on the arm of her father,

Mr. Moody meeting her at the altar with his mother. The bridal couple stood beneath a beautiful bell composed of pure white roses, while Dr. Morrison performed the ceremony in an earnest and beautiful

This exquisite wedding bell was suspended from a arch twined with ivy and white roses, and perched above the bell was a white dove, with outstretched wings. The altar was banked with superb pairs and lerrs, and all the chandeliers were hung with white roses and smilax.

The bride was most lovely in her long trained gown of white faille francaise, with its costly, trimming of pearl passementerie. Her only ornaments were a pair of diamond earrings—a present from her grandmother. A wreath of natural flow-ers confined the illusive veil, and she carted a bou-quet of zella la pradel roses, tied with white quet of zella la pradel roses, tied with white ribbons. She is a lovely young lady, and her many friends regret that her marriage will take her away from Atlanta, to reside in Gadsden, Alabama, the home of her husband, who is a prosperous young business man of that city. The attendants, after the ceremony, were invited to a reception at the home of the bride, on Forest avenue. There a beautiful scene awaited them. The house was converted into a fairy land of flowers. The archway in the ball was twined with twy and crysanthenums and ball was twined with ivy and crysanthemums and on either side were tall stands of rare flowers and foliage plants. The bridal couple stood in the draw-ing room beneath a marriage beil of white roses suspended by ribbons from the chandelier, to re ceive their congratulations. The mantel of this room was banked with red and gold crysanthemums and banks of fer as and foliage plants most tastefully arranged beautified the corners of the room. The dining room, entirely in pink and white, contained many tas eful decorations, the most unique and beautiful being a white dove suspended above the beautim being a white dove suspended above the tables from the chandelier with white ribbons. The chandelier was twined with roses and smilax, and pink and white tapers in silver candelabras made the seene brilliant. Last evening, Mrs. Nunnally celebrated her wooden wedding at her home on Peachtree street. The tasteful pariors and hallway were tastefully decorated in flowers, palms and ferns, and the stairway was twined with Ivy and crysanthemums. A dainty supper was served, and many useful and or-namental gifts were received.

The Catholic Fair. The bazaar in aid of the church of the Im-

late Conception, opened last evening in the Brown building, on Wall street, adjoining the telegraph office. There are three booths for fancy articles, a

doll's booth and a refreshment booth. The table on the right is in charge of Mrs. Dr. Spalding and Mrs. Jno. J. Lynch. The next is in charge of Mrs. J. H. Corbally, Mrs. Berry and Mrs. P. J. Moran; the first on the left after passing the ice cream stand is in charge of Mrs. J. F. Burke, Mrs. Joseph Gatins, Miss May Loyd and Mrs. Rhode Hill. The booth in the middle of the hall is in charge of Mrs. Dr. Ridley and Mrs. J. Carroll Payne. The refreshment stand is waited upon by Mrs. O'Neill, Mrs. McDonnell, Mrs. Johnston and Mrs. Corrigan, McDonnell, Mrs. Johnston and Mrs. Corrigan, The decorations of the booths are very handsome, and the young ladies are very attractive. Mr. Tom Corrigan is an authority to be consulted on turkey, chicken salad, oysters, tea and coffee. The fancy articles are numerous, and the use of some of them bewildering to the masculine mind. The dolls are numerous, and all dressed in the latest Parisian style. He was waiting at the Louisiana State Lottery office on St. Charles street, for a check for \$5,000, which was being drawn up as payment of part of the second capital prize of \$100,000, in Tuesday's drawing.

"Where do you reside, Mr. Casey?" queried "Where do you reside, Mr. Casey?" queried the reporter.

"No. 22 Oliver street, Algiers. I am a ship carpenter; work for the Red River Line; am a New Orleans boy; was born in the Third district and am just 22 years old," said the young man, in a confident tone peculiar to one who feels an interest in what he is talking of.
"Quite a nice little sum for \$1. When did you buy the ticket and what number is it?" asked the Picayune man.

"Quite a nice little sum for \$1. When did you buy the ticket and what number is it?" asked the Picayune man.

"I bought a one-twentieth part of ticket number 73,946, on Monday last, and it is the first lottery ticket I ever bought."

"If I may ask, sir, to what use do you intend putting your newly acquired fortune?"

"I intend to invest it in real estate and continue working at my trade," said Mr. Casey.

At this juncture in the conversation one of the gentlemen came from behind the counter and remarked to Mr. Casey:

"Here is a check for \$5,000 on the New Orleans National Bank, Mr. Casey. Please let me have your ticket."

The lucky little piece of paper, numbered 73,946, was handed the clerk, and young Casey received his \$5,000 check. He took it to the bank, drew a small sum on it, deposited the balance and walked out into the street a very happy young man.—New Orleans Picayune, Oct. 13.

Johnson City, Tenn., January 4, 1888.—Dr. B. M. Woolley, Atlanta, Ga. My Dear Sir: I have been very negligent in this one duty. I can say that I have never varied one lota from your directions. and took your Antidote regular from first dose of Antidote. I never had the least desire or appetite

for morphine, of which deadly drug I was a slave for three years previous to the above date, taking it three times daily. I was becoming such a victim to it that my life was a burthen to me, but am happy to say I am a free man today, and shall ever be thankful to you and your Autidote, and am ready to bear witness to its virtues at any time, and will correspond with any one who may wish to make a trial of your Antidote, for it is just what you say it is, and I do trust and pray that every one who is addicted to the awful habit of morphine may have an opportunity of getting relief in the way I did.

ATLANTA'S CONTRIBUTION. TO THE NATIONAL DEMOCRATIC CAMPAIGN FUND.

The Government Employes Here Send One Thousand Dollars and the Citizens Five Hundred-More to be Sent. Fifteen hundred dollars, even. That is the amount mailed from Atlanta

esterday to the national democratic campaign lollars, and the other for five hundred. The former was sent by the government officers in

all branches of the custom house; the latter by Mr. Fulton Colville, president of the Young Men's Democratic league.

This was the first money sent from Atlanta,

but it will be followed by other checks in the next few days.

It has heretofore been understood in the south that her 153 votes was sufficient contribution to the democratic party. But it is not, and Mr. Fulton Colville realizing the fact that the south should not only aid the democratic party with its votes, but with its money also, started out yesterday on a canvassing tour of the city. Nearly every one he met gave him a few dollars, and by dark he had raised the amount of \$500, which was immediately mailed to headquarters in New York. The gentlemen in the customhouse came up manfully, as their check of \$1,000 demonstrates.

But Atlanta always leads the south. She is But Atlanta always leads the south. She is democratic to the core and realizing that the democratic party needed money she has given it. Not a large amount, it is true, but already larger than any other southern city has contributed and more will follow in a day or two. Mr. Colville and others of the Young Men's League will continue to canvass and before the end of the week Atlanta it is safe to say will have

The boy listened to the sentence and then, turning to Detectives Cason and Bedford, who had made the case against him, he shook his fist at them and said, "I'll fix you for that." Whereupon the judge made the sentence five years instead of three. John Brown, colored, entered a plea of guil-

ty to the charge of car breaking and was sent up for five years.

The case of Dan Clark, or Dan Falvey, was then taken up and lasted nearly all day. Falvey, as he is better known here, is the young man that stabbed Theo Flesch some two or three months ago. He has been in jail since, having been unable to give the bond required.

The jury found Falvey guilty and his sentence will be given this require. tence will be given this morning

Jack Ward, colored, charged with assault th intent to murder, plead guilty to the charge stabbing, and by the consent of the solicitor, He was fined \$50 or twelve months.

Detectives Cason and Bedford have tried before Judge Clark within the past seven days twelve burglars, and every one of them has been convicted, the sentences varying from four years to fifteen years. They are to prosecute two more negroes today—the two that assaulted Mr. Abney on Hunter street. There is little doubt of the conviction of these two and that brings the record up to a remarkably successful average—14 out of 14. successful average-14 out of 14.

Diseases, especially such diseases, as are most common, and most troublesome can be cured without polson or drug. Oxygea, the live-giving principle, has been so adjusted to nitrogen, and the compound so magnetised, and so fixed in chemical solution that it has become portable, and is now being transported all over the world—is actually going into tens of thousands of homes, bringing back hope long departed, and giving liberally the buoyancy of new life.

That this is being done daily all over the United States and Canada, and throughout the civilized world, tens of thousands of happy voices, men, women and children will gladness attest.

Rev. Sidi H. Browne, editor Christian Neighbor, Columbia, S. C., says:

'The success of Mr. Moore in his agency, attested by a great number of original certificates from piominent persons of various professions, in South Carolina, North Carolina, and Georgia, must remove all doubt from reasonable minds as to the Compound Oxygen treatment, accomplishing what its proprietors and Mr. Moore claim for it.

'Mr. Moore carries in his own person a proof of the wonderful merit of the treatment. A few years ago he and his friends thought that he was on a rapid and wasting run to the grave. He began the use of the Compound Oxygen, which, in due time, reversed seeming destiny, and not only restored him to his former health, but has carried him above that even, to what he now is, a healthy and able-bodied man.'

Rev. H. S. Bradley, M. D., Griffin, Ga., Aug. 20th, says: "It will strike any thinking man as the most rational treatment for all threat and lung complaints and nervous troubles."

John J. Mason, M. An Important Consideration. An Important Consideration.

The care of the eyes receives little attention from people generally. The sight is abused, and small importance is attached to signs of its failure until you are almost appalled by the discovery that your eyes are in an alarming condition. This is all wrong, as precautions should be taken to arrest the trouble, when in its flist stages, by the use of properly adjusted glasses, and then your eyes retain their vigor to extreme old age. Hawkes's Crystalized Lenses have been found to combine the good qualities of all glasses, and are invaluable in relieving.

Harrison Very Wrathy Over the Absurd Document. INDIANAPOLIS, October 31.-[Staff Corres-Indianapolis, October 31.—Istail Correspondence.]—The republican leaders are in dismay today over the recent confidential letter of W. W. Dudley, which has come to light, in which he outlines his plan of campaign. In the early part the country than was great clea in the republic of the day there was great glee in the republi can headquarters over Dudley's grit. They openly boasted that he did write the circular, and that it pointed the way to victory. Later in the day, when it leaked out that the democratic state senate committee were about to in-

cratic state sounds controlled and stitute legal proceedings against Dudley and of those concerned with him in the have circulation of the letter, the all elements of the letter, the sale of the letter of letter, the al elected and finally The man had a coral Harrison read had a coral transfer at the same and the same area. circulation republicans began to hedge and finally changed front. When General Harrison read the citcular it is stated he grew furious. He is a man of quiet religious habits and would not personally be concerned in any scheme having the taint of corruption. One sentence of Dudley's circular assures the local committee addressed that "it will certainly receive ticket from Chairman Huston the assissance necessary to hold our floaters and doubtful voters and gain enough of the other kind to give Harrison and Morton 10,000 plurality." then the workers are teld to "divide the floaters into blocks of five and put a trusted man with necessary funds in charge of these five and make him responsible that none get away and that all vote our ticket."

DUDLEY'S THREAT. Having thus prepared the way, as he thinks, for buying enough votes to make the result lose Dudley threatens a repetition of the scene of 1876 by saying "we will fight for a fair election here if necessary. The rebel 'crew can't steal this election from us, as they did in 1884, without some one getting hurt." Not only General Harrison was wrathy over the infamous declarations, but intimations began to pour in upon the state republican committee, which had been in such glee in the morning, that respectable republicans by the hundred would bolt the party if the authenticity of the Dudlev letter could be established.

The members of the .committee began to throw out hints that the letter was a democratic forgery, designed to offset the Sackville-West epistle. To this the democrats at once replied that they had positive proof of its authenticity. The original copy of the letter is in the possession Mr. of S. E. Morse, the editor of the Sentinel. It covers two sheets of paper and is written on the engraved letter-heads of the epublican national committee, printed with blue ink. The first page, on which was written the name of the person to whom it is said to have been addressed, has been cut off, close to the first. The matter is printed with a typewriter, of the italic style of letter, and the lines are close together. It is difficult to determine how the signature was written. Mr. Morse thinks that it was written with an ordinary pen, but it looks like some uncommon instrument had been used. The lines are very fine, and lines are discernable that were not traced

Mr. Morse was asked if there was any evidenoe connected with the letter that had not been made public. "None that I care to speak of now. But I will tell the grand jury what I

Ssuppose no one doubts that it is genuine." "Yes, republicans question its authorship. They believe it is a forgery." THE CIRCULAR IS GENUINE.

"I have not the least doubt that it is genu ine. I do not believe that Dudley will deny that it is his signature that the letter bears. It men and experts, familiar with Dudley's writing and all agreed that there was no doubt that it was Dudley's signature. There is no question, in my mind

Mrs.

on that point."

Mr. Sheeren, the secretary of the democratic committee, talked freely about the matter. When asked how the letter came into the possession of the democrats, he said: "It was sent to Mr. Hewitt, the chairman of the state com mittee. The gentleman who received it from Dudley tore the address from the top of the first page for reasons of his own. I have no doubt, whatever, that the letter was sent out

pressure from men within his own party, Chair-man Huston, of the state republican commitee, has prepared a card which will strike Mr. Dudley amidships. In that card Chairman Huston says: "As chairman of the state central committee I state that Colonel Dudley has had nothing to

Thus run down by the democrats, and under

do with the management of the Indiana cam-paign. He has not, to my knowledge, been in the state, nor have I been advising or corresponding with him. I knew nothing of any intention on his part to address any letter to mybody in: Indiana. In so far as this letter says I suggest the employment of improper or illegal methods in connection with the approach-ing election, on behalf of myself and the state central committee, I utterly repudiate such suggestions as entirely contrary to the plans and purposes of this committee." This card, it will be noticed, makes no de-

ense or palliation for Dudley, but simply repudiates and ignores him. In this action Chairman Huston has the full indersement of General Harrison; in fact, the general, him-self, was the moving spirit in giving affairs this turn. As Mr. Dudley is treasurer of the national committee, this action may strain the relations between the New York and Indian-apolis ends of the republican hippodrome. The fact is that it is hard to tell which end is the dog and which the tail. The national committee acts as if it was at the helm, but on everal occasions it has been sat down upon by General Harrison and the Indiana state littee in matters of great importance. DUDLEY DENIES THE AUTHORSHIP.

This evening a telegram was received here from Dudley, in which he says that the letter "is a case of forgery," and threatens to sue papers which publish it for libel. When I entioned this fact to Governor Charley Jewett, the chairman of the democratic committee, he laughed heartily and said: "Dudley cannot save himself that way. The letter is genuine. It has aroused the honest people of Indiana against such shamele

nethods, and on election day you will see the

democrats have Indiana in the swing with a majority of 20,000."

In the Dennison house today I found ex-Governor Noyes, of Ohio, former minister to France, who has been campaigning from New York to Missouri. As I received an intimation from a source to be credited that Noyes is to be a member of Harrison's cabinet in case the republicans triumph, I asked him the question.

umph, I asked him the question:
"General, if the republicans get into power,
what will be their conduct toward the south?
